CEFPODOXIME

(BRAND NAME: Simplicef)

STRENGTH: 100 mg Tablets, 200mg Tablets, Oral Liquid

ROUTE OF ADMINISTRATION: Oral.

Works best when not given with food. Ideally give 1 hour before feeding.

ACTION OF MEDICATION: Cefpodoxime is a third-generation cephalosporin antibiotic. It has many antibacterial uses.

MOST COMMON SIDE EFFECTS: Appetite loss, vomiting, diarrhea.

SEVERE SIDE EFFECTS: None specifically but any of the above could potentially become severe.

STORAGE: Keep away from light and store at room temperature.

IF YOU MISS A DOSE: Do not double up on the next dose. Simply give the medication when it is remembered or pick up with the next dose, allowing at least the proper interval between doses according to the label instructions.

OTHER INFORMATION: Concurrent use of antacids can interfere with absorption of cefpodoxime into the body.
