3850 Grand View Blvd., Los Angeles, CA 90066 (310) 391-6741 Fax: (310) 391-6744

Amoxicillin/Clavulanic Acid **(Brand Names: Augmentin, Clavacillin, Clavamox)**

STRENGTHS: 62.5 mg, 125 mg, 250 mg, 375 mg,
500 mg, 625 mg, 1000 mg tablets as well
as chewable and oral suspension

ROUTE OF ADMINISTRATION: ORAL
Can be given with or without food,
see label for instructions

ACTION OF MEDICATION: Antibiotic geared especially
for *Staphylococci* and anaerobic infections
but useful in many other infections as well.

MOST COMMON SIDE EFFECTS REPORTED: Vomiting, diarrhea, appetite loss. Usually giving the medication with food solves these issues but if side effects persist, it may be necessary to select another antibiotic.

SERIOUS SIDE EFFECTS REPORTED: Specific serious side effects have not been reported but any individual animal can have a unique reaction.

STORAGE: Keep away from light. Store at room temperature. The oral suspension should be refrigerated though 24 hours without refrigeration is not a problem. The oral suspension should be discarded after 10 days.

IF YOU MISS A DOSE: Do not double up on the next dose. Give the next dose as scheduled.

OTHER INFORMATION: Often recheck cultures are performed after the treatment course is completed.
