RANITIDINE **(Brand Name: Zantac)**

STRENGTH: 75 mg, 150mg, 300mg
or oral liquid

ROUTE OF ADMINISTRATION: ORAL
Ranitidine works best if given
before the first meal of the day.

ACTION OF MEDICATION: H2 blocker (antihistamine that works on the stomach to prevent acid secretion).

SIDE EFFECTS REPORTED: There are no side effects reported. Dose reduction is recommended for patients with liver or kidney disease.

STORAGE: Keep away from light and store at room temperature. Do not refrigerate.

IF YOU MISS A DOSE: Do not double up on the next dose. Simply give the medication when it is remembered and time the next dose accordingly. Do not double up on doses.

OTHER INFORMATION: Ranitidine is not only an antacid but it also improves motility and contraction of the GI tract.
